CHOICE U.S. COINS FROM NEW ENGLAND'S LARGEST & MOST ACTIVE RARE COIN DEALERSHIP

OUR POLICY:

GRADING:

We grade all of our coins accurately and conservatively. We try to describe our coins in such a way that it will be exactly as you expect it to be when you receive it. We don't believe in pushing grades or ignoring defects. All coins are described as fully as possible, with scratches, weak strikes, nicks, or signs of cleaning mentioned.

PRICES:

We try to price our coins as reasonably as we possibly can. In light of the quality we offer, we cannot sell coins at "below-wholesale" or "bargain" levels (except in very rare "special" circumstances.) However, we're fully convinced that we are delivering the best possible value per dollar spent. Despite our seemingly "high prices, America's leading collectors, investors and dealers continue to order from N.E.R.C.G. We must be doing something right!!

SERVICE:

Nearly all orders go out the same day they are received. All coins are shipped fully insured, or registered, and all non-local orders are sent via AIR MAIL. We know you don't like to wait any longer than necessary to receive your coins. That is why filling your orders quickly and efficiently is so important to us. Try our service. You will be amazed!

SATISFACTION GUARANTEED:

To sum it up — we are not happy until you are! All coins are sold with a ten (10) day return privilege. (Coins may be returned for any reason or no reason at all!) All coins carry a lifetime guarantee of authenticity. (Members of our staff serve as advisors as to authenticity for other dealers, banks, museums and U.S. Government agencies. When you order coins from N.E.R.C.G. — we guarantee that you will receive an authentic specimen of the issue you order — a point not to be taken lightly when you consider the number of counterfeit and altered examples of many issues that are currently on the market.)

CUSTOMER SERVICES:

New England Rare Coin Galleries also offers the following customer services:

WANTLIST

If you are looking for a particular coin or several coins in a particular grade, send us a list of these. We will do our best to locate them for you. There is never any obligation on your part!

INVESTMENT COUNSEL:

Our expert staff of numismatists will be happy to advise you as to the coins which we feel will offer you the best possible return per dollar invested. We are in constant touch with the coin market, and are in a better position than most to recognize truly scarce and underpriced numismatic items. Investment packages can be tailor-made to your individual needs. If you would like to discuss this service, call us and ask for Christopher Tracey.

PRIVATE TREATY SALES:

We have built one of the largest rare coin dealerships in the U.S. Our clientele includes many of America's leading collectors and investors. Our problem is not selling coins — it is buying them! If you have a rare coin or group of coins you would like to sell (and realize the best possible price for it!), send us a description of the coin(s)

you have for sale. If we have a client needing the particular coin or group of coins, we can arrange to sell them through private treaty. (We are also anxious to buy coins outright.)

SELECTION:

In this price list we present the best selection of choice and rare U.S. coins that we have ever offered. There are many excellent values here, and we strongly advise an immediate phone call to reserve items in which you are interested.

We have priced and graded all coins to be top values, and choicest, desirable coins that are priced to sell (and most of the coins we offer for sale fit that category) cannot be expected to last long.

Invariably when we publish our ads and price lists, we get multiple orders. (often 10 or 15 orders for the same item!) Nearly all items are one or two of a kind, and thus we must often disappoint our customers with sold out letters and refund checks. This is regrettable, but the alternative (pricing our coins so that they are not as good values to avoid multiple orders for the same coin) does not appeal to us, nor, would we expect it to appeal to our valued customers.

Therefore, all we can say is please order as soon as possible, and list second choices if possible. We will not use your second choice listings unless we are sold out of your first choice.

Vermont 1786 VERMONTENSIMUM, Ryder 6. beautiful Brown Unc.(!), with some very minute signs of cabinet friction. An absolutely unbelievable rarity in this state of preservation, the finest VERMONTENSIMUM to be offered for sale in more than a decade! Vermont cents are very seldom offered in anything resembling a high grade (in fact, usually seen in AG or Good!) We had the opportunity to buy a few pieces from one of the finest collections (from a quality standpoint) of Vermont coinage ever assembled. The chance to purchase any Vermont cents in such outstanding condition is Rare indeed. We consider this to be the highlight of our purchase and we're sure this will be the highlight of the collection of the next proud owner. A truly once-in-a-life-time opportunity..... 4950.00

Vermont, 1788. Bust Right, Ryder-27. Glossy Brown Ch. AU, even light brown surfaces. One tiny defect on the reverse as well as some minor reverse die rust, mentioned solely for the sake of accuracy. Incredible condition piece. AU (p.23) 1300.00

1793 Gilbert 4, Glossy brown AU, absolutely free of even the slightest defect. A highly unlikely occurrence for this early Americana issue. We have on very rare occasions, seen higher grade 1793 ½¢'s, but we have never seen a choicer or more pleasing example. The value of this is further enhanced by the fact that Gilbert 4 is the scarcest variety of 1793, usually only seen in lower grades. We have priced this piece at the "common type" price, sure to be an excellent value and an outstanding opportunity for the type or variety specialist 4950.00

1845/3 Gem Brilliant Unc. We are proud to be able to offer one of the finest known examples of this overdate. This is the correct overdate variety, and not the common recut "5" variety, which is often confused with the overdate. The specimen offered here retains the diagnostic light die crack extending from the 5 to the rim. At the time Don Taxay wrote his reference work in 1970, he noted this overdate was "Unverified or Rarity 8 (one to three pieces known-ED) if it exists." Since that time, a few circulated examples have been discovered but as far as we can find, there are only two mint state examples known, one of which is offered here. A still as yet unpublicized and relatively unknown rarity. When it becomes known to the general numismatic field, we feel it will command a substantial premium over today's relatively low price of just 1950.00

Considering that only a very few "proof" coins are known from this mint (such as the very rare 1893-CC proof dollar which brought \$18,000 over a year ago and the proof 1884-CC dollar which is currently being advertised at well over \$30,000), we feel that this coin must be a bargain at our price of only	2100.00

 EF-AU, lightly toned lustrous example of this popular overdate 595.00

1807 Choice Brilliant Unc., a really spectacular example of this prohibitively rare issue in mint state. As close to a full strike as we've ever seen, with only part of the denticles lightly struck. Absolutely the finest example we have ever handled or seen. A really unbelievable specimen of this issue. Priced at 8500.00

1864-S BU, the finest known! It is not often that we are able to unhesitatingly describe a coin as *UNIQUE*. However, we confidently feel that this is the only true mint state 1864-S quarter known. The Miles-H.P. Smith specimen was a badly cleaned "slider" and yet was by far the finest specimen to appear in the past 2 decades. This particular piece is fully lustrous, sharply struck and fully mint state. It is at least 3 times as rare in BU as the 1804 quarter (which sold for \$25,000 over a year ago), and although it does not carry with it the romance of an 1804 quarter, it is certainly a bargain at our price. MORGAN SILVER DOLLARS *Our Grading Standards*

- MS-60* — Strictly uncirculated, full mint frost with the normal amount of bagmarks, and normal strikes for the date. (Excessively bagmarked coins or horrible strikes will be noted separately.)
MS-65 — Choice BU, well struck pieces with minimum amount of bagmarks. Generally well above average coins. Comparable to coins some sell as MS-70! Our MS-65 coins will usually please even the most discriminating collector.
MS-70 — True Gem Uncirculated, virtually perfect, fully struck coins with essentially no bagmarks. Many dates, in fact, simply do not exist in MS-70 although you see many dealers offer them as such.

NOTE: Coins listed as *Ch. AU* have full ORIGINAL mint luster and full hair and breast feathers. Many collectors and some dealers(!) cannot tell these from mintstate!

MORGAN SILVER DOLLARS

Choice AU, prooflike surfaces. Sharply struck with full hair detail and full breast feathers. We've seen far worse called "Choice BU" and priced at over \$5000. This piece, priced at just 1500.00
1892-S Choice AU, fully lustrous. Only a few light handling marks keeps this piece out of the upper four figure category. A real buy for the advanced dealer or collector at 2500.00

1892-S MS-60, strictly mint state, and extremely rare as such. In our opinion, the rarest Morgan Dollar in mint state, rarer in fact than the highly touted 1893-S dollar. This piece is one of the nicest we've seen . . . sharply struck with full breast feathers (though not razor sharp), fewer than normal bagmarks, and full original luster. A true BU specimen, and absolutely genuine — a point not to be taken lightly as we've seen many counterfeits of this date in high grade. This piece is sure to highlight even the finest Morgan Dollar collection for just 5950.00

1893 MS-65, full prooflike surfaces. One of the rarest Morgan Dollars in prooflike as this is only the second such example we've seen. This piece, actually the better of the two we've seen, available for only 695.00

1796 Stars Obverse. EF-AU, an extreme rarity in any grade with an initial mintage of 432 pieces, of which it is doubtful many more than a dozen pieces are still extant. The specimen offered here, surely one of the finest known is boldly struck without the sometimes seen weakness in the lower hair curls. For the sake of accuracy this specimen does show the die scratches at TATE on the reverse. The finest known of this variety, in mint state, was just recently auctioned for a record smashing \$33,000!! With the emphasis today on rarity and quality, this will surely prove to be an excellent investment for the next owner at our price of 15,000.00

1821 Brilliant Unc, with just the slightest traces of cabinet friction only noticeable under magnification. Two minor abrasions mentioned solely for the sake of accuracy. Very much in demand as the first year of this type, even though mintage figures say that 6,448 pieces were struck. Most of these, however, were melted due to their high gold content in 1834. In that year, Congress reduced the gold content in gold coinage, thus making all of the earlier gold coins worth more than face value because of their bullion content! The last meaningful auction record we can trace was the Gilhousen specimen in EF which realized only \$4,000. However, this was before the dramatic price rise in this type. They have since doubled (or more!) in price. For example, commoner dates of this type are now wholesaling (trading between dealers) at well over \$6,000 in BU — yet a prooflike gem 1829, which is a scarcer date, brought only \$3,400 in the Gilhousen sale. This offering represents a unique opportunity to the quality conscious type or date specialist. It may be 10 or more years before another 1821 mint state quarter eagle is offered for sale. We feel our price is more than justified, and in fact expect this coin to prove an outstanding investment and an excellent value. Sure to be the highlight of the collection of its next owner at. 11,500.00

Mason, Military Governor of California. The gold was turned over to the mint where it was made into quarter eagles. The distinguishing mark CAL was punched above the eagle on the reverse side while the coins were in the die." The specimen in that sale (Gilhousen) brought \$7200- in just EF. One of the great rarities of the entire series, in fact one of the most famous and romantic gold coinage issues minted. An important addition to even the most advanced collection. 1865 Borderline Unc, actually fully mint state with some softness in striking, and with a few usual bagmarks. Full frosty mint luster. Previously unknown in uncirculated grade. Actually 1865 is a great rarity in all grades. Breen estimates less than a dozen known, and no business strikes reported to exist better than VF! This coin recently came from Europe where it has probably been since the 1860's. An exciting discovery. This unique coin combines rarity and condition, as it is by far the finest known business strike of an extremely rare and underrated date. It is almost absurd that with an 1804 dollar having recently sold for \$150,000, you can buy a coin that is probably equally rare for only 5950.00

INVESTMENT PACKAGES OF RARE COINS

We are often asked for our recommendations as to which coins we feel offer the best possible investment potential. Unfortunately, it is impossible for us to give a specific answer to such a general question. So many factors concerning the individual situation of the investor, himself, must enter into the answer.

THE INDIVIDUAL INVESTOR:

The coins you should hold, depend on quite a few factors. The most important is the amount of time you can hold your investment. For example, many coins which offer excellent long-term (say 10-12 years) potential, offer no real possibilities at all to those wishing to keep their investments for only 3 or 4 years. In many cases, an investor is willing to sacrifice some of his probable percentage gain for greater liquidity. (Especially if he is not sure *WHEN* he will wish to dispose of his investments.) Some investors are interested in highly speculative items (such as bullion gold, BU rolls, etc.) that offer quick profits (or quick losses) and put them completely at the mercy of various uncontrollable market factors. Others prefer investing (usually over a long period of time) in rare items such as choice colonials, rare

gold, choice type material, and rare date silver and copper coins. As far as I know, any collector or investor that has bought such items from a reputable, established dealer, and held them for a minimum of 5-10 years, has always been able to sell his holdings at a substantial profit.

THE COIN MARKET IN GENERAL:

Prospects for the future of the rare coin market in general look excellent. Coins always seem to perform the best in times of inflation, and the current shortages of raw goods indicate the coming of an inflationary trend. In the past year, the stock market has not only failed to keep up with inflation, but has actually lost money for many of its investors. Conversely, gold has better than doubled in price, silver has risen dramatically in value, and rare U.S. coins in general have approximately tripled in value. We foresee the continuation of this trend for quite some time.

Also there are certain areas of numismatics (rare coins) where many items have not been keeping pace, pricewise, with the rest of the coin market and with the increase in demand, they must thus be considered underpriced.

WHAT YOU CAN DO:

We are strongly recommending the purchase of selected rare coins for investment, to be held for 3-5 years or longer. In average times, investments in properly selected U.S. coins can generally be expected to double in value every 5 years. In times such as these, the increase may be far greater. We try to offer our clients the type of coins that we feel will appreciate well over the long run — coins whose value is based on true rarity and condition, rather than merely highly speculative intrinsic content.

We also recommend certain series as investments for specific periods of time. (For example: we are recommending the purchase of choice U.S. colonials to be held until 1976 — as we feel that the bicentennial will spark a great deal of interest in this particular field of numismatics. We also consider rare date gold coins to be the best general 5-7 year investment item.) However, there are always going to be specific items within these series that we feel are better buys than others.

Please answer these questions as specifically as possible.

How long do you expect to be holding these coins? If you're not sure, please give approximate chances of each possibility — example: "I will probably hold for 10-12 years, but there is about a 20% chance I will need to sell in 4 years." (Note: *We do not recommend investing in rare coins unless there is a good chance you'll be holding them for at least 2 1/2-3 years.*)

Do you have any preferences regarding intrinsic values of coins, specific type of items that you prefer, etc.? (Note: We prefer that you leave these considerations up to us, however we will accommodate any wishes regarding specific interests you may have.)

How do you intend to dispose of these coins when it becomes time to sell? Would you like us to give you our recommendations?

Do you know if you will be investing more money in rare coins using this plan in the future? If so, approximately when and in what amounts? (This will help us plan which of the coins that fit into your picture to sell you now and which to plan on selling you later, as we feel certain coins may now be underpriced and others overpriced on a short-term basis although both may be underpriced on a longer-term basis.)
